PROFESSIONAL SUMMARY

B.Tech Computer Science graduate (CGPA 8.03) seeking a Java Developer role. Strong in Core Java, OOP, Spring Boot, REST APIs and MySQL. Built TypeQuest, a secured full-stack typing tutor (Spring Security/JWT, MySQL, React) with 110 automated tests, CI and measured API performance tuning, plus a MySQL query analyzer and a Core Java banking system.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript (basic), HTML5, CSS3
Java & Backend: Core Java, OOP, Collections, Exception Handling, File I/O, Serialization, Spring Boot, Spring MVC, Spring Security, JWT, Spring Data JPA/Hibernate, REST APIs, CORS, JDBC, Maven
Frontend: React, React Router, Vite, Bootstrap, HTML, CSS
Database: MySQL (schema design, Flyway migrations, indexing, EXPLAIN-based query optimization basics)
Testing: JUnit 5, Mockito, Spring Boot Test, Vitest
Tools & DevOps: Git, GitHub, GitHub Actions (CI), Docker, IntelliJ IDEA, Render, Vercel, Aiven
Other: Layered architecture, authentication and role-based access, API performance tuning, Computer Networking (basics)

PROJECTS

TypeQuest | Java, Spring Boot, Spring Security, MySQL, React, Docker — Live Demo | GitHub

- Built a full-stack typing tutor (Spring Boot + React 19) with an 8-level, 26-lesson course, five typing games, XP and levels, a leaderboard and an admin area for users, scores and lesson content.
- Secured the stateless REST API with Spring Security and JWT: BCrypt, refresh-token rotation, account lockout after 5 failed logins, per-IP rate limiting, role-based access, and email verification and password reset via the Brevo API.
- Designed the MySQL schema with JPA/Hibernate and Flyway migrations; used pessimistic locking so tokens cannot be spent twice, and server-side checks that reject implausible game scores.
- Benchmarked the live API and cut /api/lessons latency from about 2.2 s to 0.3 s by moving it next to the database region and tuning MySQL driver options; added indexes for leaderboard and history queries.
- Wrote 110 JUnit/Mockito tests; set up GitHub Actions CI (MySQL service, lint, build, Docker images); deployed on Vercel, Render and Aiven.

MySQL Query Debugger | Java, Spring Boot, React, MySQL, Docker, GitHub Actions — Live Demo | GitHub

- Built a full-stack tool that explains how MySQL runs a query using EXPLAIN, without executing it: step-by-step flow, visual plan, performance findings and CREATE INDEX suggestions for SELECT, CTE, DML, view, trigger and index statements.
- Added a "What if I add this index?" before/after comparison and a "use your own tables" mode, run in temporary sandbox schemas dropped after every request; blocked unsafe input (stacked statements, executable comments, dangerous functions).
- Wrote 58 JUnit and 55 Vitest tests; set up GitHub Actions CI and a multi-stage Docker build; deployed on Vercel, Render and Aiven MySQL with CORS, a health endpoint and client retries for free-tier cold starts.

Banking Management System | Core Java, OOP, File I/O, Serialization — GitHub

- Built a layered console banking app in core Java (menu, service, repository, file storage) with customer and admin roles, PIN login that locks after 3 failed attempts, deposits, withdrawals, transfers, transaction history, and admin search, sort, statistics and report export.
- Applied abstraction, inheritance, polymorphism, interfaces and custom checked exceptions; persisted data with Java serialization.

EDUCATION

B.Tech, Computer Science and Engineering | University College of Engineering Narasaraopet, JNTUK — 2023 – 2026
CGPA: 8.03 / 10 | Percentage: 72.8%

Diploma in Computer Engineering (DCME) | SBTET Board | 92.42% — 2020 – 2023

Class X (SSC) | BSEAP | 99.5% — 2020

INTERNSHIP / INDUSTRIAL TRAINING

Front-End Developer Intern | KKCC Info Systems, Ongole | Diploma industrial training — Jul 2022 – Jan 2023

- Learned front-end fundamentals (HTML, CSS, Bootstrap, basic JavaScript) and developed static websites.

CERTIFICATIONS

Databases for Developers: Foundations | Oracle Dev Gym (Oracle Corporation) — 2026

ADDITIONAL INFORMATION

- Gold Medal in Shot Put at the Annual Day Sports; Class Representative (CR) during B.Tech 3-1 semester.
- Languages: Telugu, English, Hindi
